The Journal

OF THE

Royal Aeronautical Society

With which is incorporated The Institution of Aeronautical Engineers

A Monthly Illustrated Magazine devoted to all subjects connected with the Navigation of the Air.

EDITED FOR THE

COUNCIL OF THE ROYAL AËRONAUTICAL SOCIETY

BY

Captain J. LAURENCE PRITCHARD, Hon. Fellow.

VOL. XXXVI.

1932.

Printed by the Lewes Press (Wightman & Co., Ltd.), Friars Walk, Lewes, and published by the Royal Aëronautical Society, 7, Albemarle Street, Piccadilly, London. W.1.

THE JOURNAL
OF THE
ROYAL AERONAUTICAL SOCIETY
with which is incorporated The Institution of Aeronautical Engineers

INDEX TO VOL. XXXVI.

ACCIDENTS, *see* also Civil Aviation.

Accidents in civil aviation, by Capt. A. G. Lamplugh, F.R.Ae.S., M.I.Ae.E., *J.*, XXXVI., 1932, Feb., p. 93.

Serious flying accidents—causes (Abstract from *Rev. F. Aeron.*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 358.

Aeroplane accident statistics, 1930 (Abstract from *Z.F.M.*, Jan., 1932), *J.*, XXXVI., 1932, June, p. 490.

Meopham aeroplane crash, Junkers F.13, German investigation (Abstract from *D.V.L. Report*, *Z.F.M.*, Feb., 1932), *J.*, XXXVI., 1932, June, p. 474.

AERIAL NAVIGATION.

Problems of air navigation (Abstract from *Z.A.M.M.*, Oct., 1931), *J.*, XXXVI., 1932, April, p. 344.

Light signals in aviation and navigation (Abstract from *Physics*, Nov., 1931), *J.*, XXXVI., 1932, June, p. 493.

Aerial navigation—methods and equipment (Abstract from *S.A.E. Journal*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 888.

AERODROMES.

Airport lighting (Abstract from *Dept. of Commerce, U.S.A., Airport Lighting Sub-Committee No.* 6), *J.*, XXXVI., 1932, Jan., p. 85.

Aerodrome and route lighting (Abstract from *Aire. Eng.*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 360.

Aerodromes (Abstract from *J.R. Inst. British Architects*, April, 1932), *J.*, XXXVI., 1932, October, p. 907.

Airport lighting abroad (Abstract from *Rev. Ind.*, Vol. 61), *J.*, XXXVI., 1932, October, p. 907.

AERODYNAMICS, *see* also Aerofoils; Fluid Motion; Hydrodynamics.

Wind speed measurements behind stalled aerofoils (Abstract from *Z.F.M.*, May, 1931), *J.*, XXXVI., 1932, Jan., p. 87.

Stability of superposed streams (Abstract from *Proc. Roy. Soc.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 86.

A new hydraulic principle (Abstract from *C.R.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 88.

Motion of a sphere through a viscous liquid (Abstract from *Phil. Mag.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 87.

Methods of increasing wing lift (Abstract from *L'Aeron.*, June, 1931), *J.*, XXXVI., 1932, Jan., p. 89.

Damping of a pendulum in viscous media (Abstract from *Phil. Mag.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 87.

Cylinders oscillating in a stream of water (Abstract from *Phil. Mag.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 88.

Aerofoil boundary layer control by backward opening slot (Abstract from *N.A.C.A. Report No.* 385), *J.*, XXXVI., 1932, Jan., p. 89.

Motion of a viscous fluid in the neighbourhood of a disc oscillating round its axis (Abstract from *C.R.*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 362.

Motions reproducible by process of coloured filaments between two surfaces (Abstract from *C.R.*, Nov., 19, 1931), *J.*, XXXVI., 1932, April, p. 361.

New laboratory equipment for the study of fluid wakes (Abstract from *L'Aeron.*, Aug., 1931), *J.*, XXXVI., 1932, April, p. 361.

Recent measurements of the air resistance of a cylinder (Abstract from *Phys. Zeit.*, Nov. 1931), *J.*, XXXVI., 1932, April, p. 363.

Solutions of boundary layer equations (Abstract from *Phil. Mag.*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 361.

Statistical interpretation of v. Karman's discussion of turbulence on the assumption of kinematic similarity (Abstract from *Z.A.M.M.*, June, 1931), *J.*, XXXVI., 1932, April, p. 361.

Formation of vortices from a surface of discontinuity (Abstract from *Proc. Roy. Soc.*, Nov. 1931), *J.*, XXXVI., 1932, April, p. 362.

Generalisation of v. Karman's application of kinematical similarity to turbulent motion (Abstract from *Z.A.M.M.*, Oct., 1931), *J.*, XXXVI., 1932, April, p. 362.

Circulation caused by vibration of air in a tube (Abstract from *Proc. Roy. Soc.*, Dec. 1931), *J.*, XXXVI., 1932 April, p. 363.

Cylindrical vortex tubes of finite section (Abstract from *C.R.*, October, 1931), *J.*, XXXVI., 1932, April, p. 363.
Turbulent motion in tubes, experimental investigation (Abstract from *Forschung*, March, 1931), *J.*, XXXVI., 1932, June, p. 496.
Eddy diffusion in the atmosphere (Abstract from *Proc. Roy. Soc.*, Feb., 1932), *J.*, XXXVI., 1932, June, p. 495.
The conditions for dynamic similarity (Abstract from *Z.V.D.I.*, May, 1931), *J.*, XXXVI., 1932, June, p. 493.
Air flow, with demonstrations on the screen by means of smoke; by W. S. Farren, M.B.E., M.A., F.R.Ae.S., M.I.Ae.E., *J.*, XXXVI., 1932, June, p. 451.
Interference, by E. Ower, B.Sc., A.C.G.I., F.R.Ae.S., *J.*, XXXVI., 1932, July, p. 531.
Convection currents set up by a hot vertical plate (Abstract from *Phil. Mag.*, May, 1932), *J.*, XXXVI., 1932, October, p. 909.
Effect of images of trailing vortices on flight near the ground (Abstract from *Z.F.M.*, March, 1932), *J.*, XXXVI., 1932, October, p. 890.

AEROFOILS, *see* also Aerodynamics; Fluid Motion.
Aerodynamic characteristics of eight thick aerofoils (Abstract from *N.A.C.A. Report No.* 391), *J.*, XXXVI., 1932, Jan., p. 63.
Wind tunnel comparison of characteristics of three normal and three reflexed aerofoils (Abstract from *N.A.C.A. Tech. Note No.* 388), *J.*, XXXVI., 1932, Jan., p. 64.
Effect of nose shape on aerofoil characteristics (Abstract from *N.A.C.A. Tech. Note No.* 386), *J.*, XXXVI., 1932, Jan., p. 64.
Characteristics of symmetrical aerofoils. (Abstract from *N.A.C.A. Report No.* 385), *J.*, XXXVI., 1932, Jan., p. 64.
Theory of wing sections (Abstract from *N.A.C.A. Report No.* 383), *J.*, XXXVI., 1932, Jan., p. 64.
High performance aerofoils (Abstract from *Flugsport*, June, 1931), *J.*, XXXVI., 1932, Jan., p. 63.
Characteristics of aerofoils (Abstract from *N.A.C.A. Tech. Note No.* 391), *J.*, XXXVI., 1932, Jan., p. 63.
Aerofoils—tests in V.D. channel (Abstract from *N.A.C.A. Tech. Note No.* 392), *J.*, XXXVI., 1932, Jan., p. 64.
Interference effects of a centre plate on an aerofoil (Abstract from *N.A.C.A. Tech. Note No.* 403), *J.*, XXXVI., 1932, April, p. 364.
Aerofoils—aerodynamic characteristics (Abstract from *N.A.C.A. Tech. Note No.* 397), *J.*, XXXVI., 1932, April, p. 340.
Gap losses at aerofoil tips (Abstract from *Z.A.M.M.*, Dec., 1931), *J.*, XXXVI., 1932, June, p. 496.
Increase of maximum lift in winds and gusts (Abstract from *Z.F.M.*, April, 1932), *J.*, XXXVI., 1932, October, p. 885.
Aerofoils at negative angles of attack (Abstract from *N.A.C.A. Tech. Note No.* 412), *J.*, XXXVI., 1932, October, p. 884.
Computation of leading edge loads (Abstract from *N.A.C.A. Report No.* 413), *J.*, XXXVI., 1932, October, p. 885.
Wing sections of arbitrary shape (Abstract from *N.A.C.A. Report No.* 411), *J.*, XXXVI., 1932, October, p. 885.

AEROFOILS, WITH SLOTS, *see* also Aerodynamics.
Aerodynamic characteristics of slotted wings (Abstract from *N.A.C.A. Report No.* 400), *J.*, XXXVI., 1932, April, p. 340.
Tests on wing model with low drag slots (Abstract from *N.A.C.A. Report No.* 407), *J.*, XXXVI., 1932, October, p. 891.

AERONAUTICAL SOCIETY, ROYAL.
Awards of Medals and Prizes, p. 1028.
Committees of Council, 1932-33, p. 256, 1014.
Conversazione, p. 985.
Council 1932-33, p. 1013.
Garden Party, p. 1028.
Lecture programme, p. 260, 1020.
Public Schools lectures, p. 261, 1024.
Branches, p. 263.
Sixty-seventh Annual Report, p. 255.
Students' section, p. 1022.
Summary of activities, 1931-32, p. 1013.

AERONAUTICS.
Flight in nature and in science, by R. Giacomelli, A.F.R.Ae.S., *J.*, XXXVI., 1932, July, p. 578.
Aviation in Canada and the National Research Laboratories (Abstract from *Engineering Journal* (Suplt. to *J.R.Ae.S.*) *No.* 2), *J.*, XXXVI., 1932, October, p. 915.

AEROPLANES, GENERAL.
Aircraft production in U.S.A. (Abstract from *Auto. Ind.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 90.
Aircraft vibration, by H. Constant, *J.*, XXXVI., 1932, March, p. 205.
Prevention of ice formation of fuel tank vents (Abstract from *N.A.C.A. Tech. Note*, Oct., 1931), *J.*, XXXVI., 1932, April, p. 360.
A German freight carrier (Abstract from *Aircr. Eng.*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 365.
Military Aviation in Indo-China (Abstract from *Rev. F. Aero.*, Jan., 1932), *J.*, XXXVI., 1932, June, p. 491.
Recent problems in aircraft structural design (Abstract from *Z.F.M.*, Jan., 1932), *J.*, XXXVI., 1932, June, p. 473.

Ice prevention by exhaust heat (Abstract from *N.A.C.A. Report No.* 403), *J.*, XXXVI., 1932, June, p. 491.

Tail-less aeroplanes (Abstract from *Z.V.D.I.*, Jan., 1932), *J.*, XXXVI., 1932, June, p. 478.

Statistical survey of aircraft industry (Abstract from *Aviation*, March, 1932), *J.*, XXXVI., 1932, June, p. 498.

Ice hazard (Abstract from *Aeron. Eng.*, March, 1932), *J.*, XXXVI., 1932, June, p. 492.

Aircraft as an instrument of polar research (Abstract from *Z.F.M.*, Feb., 1932), *J.*, XXXVI., 1932, June, p. 498.

General maintenance (Abstract from *Aeron. Eng.*, March, 1932), *J.*, XXXVI., 1932, June, p. 499.

Monoplane wing profiles: Experimental researches (Abstract from *Air Ministry* (France) *Publication*, *No.* 8, 1932), *J.*, XXXVI., 1932, October, p. 884.

Special Navy plane to be used with airship Akron (Abstract from *Aero. Digest*, April, 1932), *J.*, XXXVI., 1932, October, p. 900.

AEROPLANES, DESIGN & CONSTRUCTION.

Determination of the best simple girder (Abstract from *Z.F.M.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 65.

Lippisch tail-less aeroplane (Abstract from *Aire. Eng.*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 339.

Size of aeroplanes and relative thickness of wing section at the root (Abstract from *Z.F.M.*, March, 1932), *J.*, XXXVI., 1932, October, p. 884.

Wing construction, by H. J. Stieger, D.I.C., A.F.R.Ae.S., *J.*, XXXVI., 1932, Oct., p. 789.

AEROPLANES, GETTING OFF & LANDING.

Reduced effective mass of an aircraft landing on one wheel (Abstract from *Z.F.M.*, Jan. 1932), *J.*, XXXVI., 1932, June, p. 476.

Calculation of landing speed (Abstract from *L'Aeron.*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 344.

AEROPLANES, MILITARY.

Development of military aircraft design (Abstract from *Aviation*, Vol. 30, Nov., 1931), *J.*, XXXVI., 1932, April, p. 341.

AEROPLANES, PERFORMANCE.

Zermelo's air transport problem (Abstract from *Z.A.M.M.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 68.

Correction of aeroplane performance to standard atmosphere (Abstract from *Flight*, Vol. XXIII., Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 62.

Abac for determination of aeroplane climb and speed (Abstract from *Tech. Aeron.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 68.

Coefficients of aeroplane performance (Abstract from *Z.F.M.*, Vol. 22, No. 10), *J.*, XXXVI., 1932, April, p. 339.

Statistical presentation of flying performances (Abstract from *Z.F.M.*, Nov., 1931), *J.*, XXXVI., 1932, June, p. 473.

Refuelling—U.S.A. (Abstract from *Luftwacht*, Dec., 1931), *J.*, XXXVI., 1932, June, p. 498.

Some factors affecting the range of aircraft with special reference to height, by A. E. Woodward Nutt, B.A., A.F.R.Ae.S., and A. F. Scroggs, B.A., D.I.C., R.A.F., *J.*, XXXVI., 1932, August, p. 604.

Aeroplane performance, formulæ and charts for calculation (Abstract from *N.A.C.A. Report No.* 408), *J.*, XXXVI., 1932, October, p. 883.

Non-stalling and landing characteristics with limited elevator movement (Abstract from *N.A.C.A. Report No.* 418), *J.*, XXXVI., 1932, October, p. 890.

Performance of land aeroplanes, simple calculation (Abstract from *Z.F.M.*, March, 1932), *J.*, XXXVI., 1932, October, p.883.

Simple method of photogrammetric determination of an aeroplane path from a fixed station (Abstract from *Z.F.M.*, April, 1932), *J.*, XXXVI., 1932, October, p. 896.

Type testing of aircraft (Abstract from *Engineering Journal*, *No.* 2, Dec., 1931), *J.*, XXXVI., 1932, October, p. 883.

AEROPLANES, STRENGTH OF.

Load factors in gusty air (Abstract from *N.A.C.A. Tech. Note No.* 374), *J.*, XXXVI., 1932, Jan., p. 63.

Exact calculation of wing ribs built on several parallel spars (Abstract from *Z.F.M.*, Vol. 22, No. 20), *J.*, XXXVI., 1932, April, p. 341.

Wing loads imposed by gusts (Abstract from *Z.F.M.*, Nos. 19 & 20, Vol. 22), *J.*, XXXVI., 1932, April, p. 340.

Load factors, rationalisation for aeroplanes in flight (Abstract from *S.A.E. Journal*, Jan., 1932), *J.*, XXXVI., 1932, April, p. 340.

Three-dimensional buckling of typical strut dispositions in aircraft (Abstract from *Z.F.M.*, Vol. 22, No. 17), *J.*, XXXVI., 1932, April, p. 341.

Safety in structural design (Abstract from *Z.V.D.I.*, June, 1931), *J.*, XXXVI., 1932, June, p. 497.

Stress calculations in redundant wing structures (Abstract from *Flight*, March, 1932), *J.*, XXXVI., 1932, June, p. 474.

Calculation of aeroplane spars under buckling stresses (Abstract from *L.F.F.*, Vol. 9, No. 3), *J.*, XXXVI., 1932, Oct., p. 913.

Development of rules for structural strength of aircraft (Abstract from *Z.F.M.*, June, 1932), *J.*, XXXVI., 1932, Oct., p. 884.

Torsional stiffness and strength of aeroplane structural parts (Abstract from *L.F.F.*, Aug., 1931), *J.*, XXXVI., 1932, Oct., p. 912.

AEROPLANES, WINGS.

Pressure distribution over a modified elliptical wing tip on a biplane (Abstract from *N.A.C.A. Tech. Note No.* 387), *J.*, XXXVI., 1932, Jan., p. 65.

Variable wings (Abstract from *Flight*, May, 1932), *J.*, XXXVI., 1932, Oct., p. 886.

Weight of aluminium cantilever monoplane wings (Abstract from *Air Corps Inf. Circ.*, Oct., 1931), *J.*, XXXVI., 1932, Oct., p. 886.

AIR LINES, *see* Civil Aviation.

AIRSCREWS.

Goldstein's solution for an airscrew with finite number of blades (Abstract from *Z.F.M.*, July, 1931), *J.*, XXXVI., 1932, Jan., p. 66.

Full-scale tests of metal airscrews at high tip speeds (Abstract from *N.A.C.A. Report No.* 375), *J.*, XXXVI., 1932, Jan., p. 67.

Full-scale airscrew tests (Abstract from *N.A.C.A. Report No.* 378), *J.*, XXXVI., 1932, Jan., p. 66.

Free-wheel airscrew (Abstract from *L'Aeron.*, July, 1931), *J.*, XXXVI., 1932, Jan., p. 66.

Airscrew characteristics, effects of small angles of yaw and pitch (Abstract from *N.A.C.A. Report No.* 389), *J.*, XXXVI., 1932, Jan., p. 66.

Vibration due to, *J.*, XXXVI., 1932, March, p. 218.

Sound generated by a rotating airscrew (Abstract from *Phil. Mag.*, Jan., 1932), *J.*, XXXVI., 1932, April, p. 358.

Vibration phenomena in an airscrew (Abstract from *Z.F.M.*, Vol. 22, No. 12), *J.*, XXXVI., 1932, April, p. 343.

A spring airscrew hub (Abstract from *Airc. Eng.*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 343.

Experimental runs with a high speed railway carriage driven by airscrew (Abstract from *Z.F.M.*, Vol. 22, No. 22), *J.*, XXXVI., 1932, April, p. 342.

Racing airscrews (Abstract from *Flight*, Oct., 1931), *J.*, XXXVI., 1932, April, p. 342.

Vibration of elastic beams with application to airscrew (Abstract from *Z.F.M.*, Jan., 1932), *J.*, XXXVI., 1932, June, p. 476.

Mutual influence of engine and airscrew characteristics (Abstract from *Flight*, Vol. 24, No. 9), *J.*, XXXVI., 1932, June, p. 476.

Composite airscrew construction (Abstract from *Tech. Aeron.*, Dec., 1931), *J.*, XXXVI., 1932, Oct., p. 887.

Screw propellers in open water (Abstract from *Engineering*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 887.

AIRSCREWS, VARIABLE PITCH.

An automatic variable pitch airscrew, by H. C. H. Townend, B.Sc., *J.*, XXXVI., 1932, Feb., p. 111.

Experimental investigations of airscrews with adjustable pitch (Abstract from *Z.F.M.*, Vol. 22, No. 18), *J.*, XXXVI., 1932, April, p. 342.

Controllable and automatic airscrews (Abstract from *S.A.E. Journal*, March, 1932), *J.*, XXXVI., 1932, June, p. 476.

Variable pitch airscrew (Abstract from *Reports of First International Congress de la Sécurité Aérienne*, Vol. 2), *J.*, XXXVI., 1932, June, p. 477.

Variable pitch airscrew, Marchetti (Abstract from *L'Aerophile*, Dec., 1931), *J.*, XXXVI., 1932, June, p. 476.

AIRSHIPS.

Akron trial flights (Abstract from *Sci. Am.*, Nov., 1931), *J.*, XXXVI., 1932, Jan., p. 81.

Progress in airship design (Abstract from *J. Am. Soc. N. Engrs.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 81.

Note on Miss Chitty and Prof. Southwell's R.38 Memorial Prize Essay for 1931, by Capt. J. Morris, B.A., A.F.R.Ae.S., *J.*, XXXVI., 1932, Jan., p. 59.

Comparison between Akron and Graf Zeppelin (Abstract from *Z.V.D.I.*, Jan., 1932), *J.*, XXXVI., 1932, June, p. 488.

U.S. airship Akron (Abstract from *Aviation*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 354.

Drag of airships, deceleration tests (Abstract from *N.A.C.A. Report No.* 397, Oct., 1931), *J.*, XXXVI., 1932, April, p. 353.

Elastic theory of the rigid airship (Abstract from *L.F.F.*, Aug., 1931), *J.*, XXXVI., 1932, April, p. 353.

Power plant of the Graf Zeppelin (Abstract from *Z.V.D.I.*, Sept., 1931), *J.*, XXXVI., 1932, April, p. 354.

World travel of the Graf Zeppelin (Abstract from *Luftwacht*, Dec., 1931), *J.*, XXXVI., 1932, June, p. 488.

Airship design: application of practical hydrodynamics (Abstract from *N.A.C.A. Report No.* 405), *J.*, XXXVI., 1932, Oct., p. 900.

The Akron (Abstract from *Aviation*, June, 1932), *J.*, XXXVI., 1932, Oct., p. 900.

The U.S.S. Akron (Abstract from *U.S. Air Services*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 900.

The U.S.S. Macon (Abstract from *Flight*, May, 1932), *J.*, XXXVI., 1932, Oct., p. 900.

AIR SURVEY, *see* Survey, Aerial.

ALUMINIUM, *see* Materials, Aluminium.

AMPHIBIANS.
Amphibian construction (Abstract from *Airc. Eng.*, Vol. 3, No. 33), *J.*, XXXVI., 1932, April, p. 341.

ANODIC OXIDATION, *see* Materials, Corrosion.

AUTOGIRO.
Invention for setting blades in motion (Abstract from *German Patent No.* 504050), *J.*, XXXVI., 1932, Jan., p. 77.
Autogiro modification (feathering instead of flapping blades) (Abstract from *Sci. Am.*, Nov., 1931), *J.*, XXXVI., 1932, Jan., p. 84.
Autogiro vertical descent (Abstract from *Z.F.M.*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 906.

BALDWIN, GROUP-CAPTAIN J. E. A., D.S.O., O.B.E., A.D.C.
Training of pilots and instructors, *J.*, XXXVI., 1932, Nov., p. 945.

BANKS, F. R., A.F.R.Ae.S.
Fuels for aircraft engines, *J.*, XXXVI., 1932, Feb., p. 127.

BENKENDORFF, DR. RUDOLF.
The organisation of air routes for night flying, *J.*, XXXVI., 1932, Aug., p. 656.

BERYLLIUM, *see* Materials, General.

BIRD FLIGHT.
Safety devices in wings of birds, by Lieut.-Cmdr. R. R. Graham, R.N., *J.*, XXXVI., 1932, Jan., pp. 24-58.
Flight of birds and flight of aircraft (Abstract from *S. Tech. Aeron.*, June, 1931, Bulletin No. 74), *J.*, XXXVI., 1932, April, p. 359.
Slots and the wings of birds, by G. V. Lachmann, A.F.R.Ae.S., *J.*, XXXVI., 1932, April, p. 374.

BOMBS AND BALLISTICS.
Use of Fasella tables for step by step calculation of trajectories (Abstract from *Z.A.M.M.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 78.
A new anti-aircraft weapon (Abstract from *Army Ord.*, Sept.-Oct., 1931), *J.*, XXXVI., 1932, Jan., p. 78.
Fire control from aeroplanes against targets and from the ground against aeroplanes (Abstract from *Rev. F. Aer.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 78.
External ballistics (Abstract from *C.R.*, Oct., 1931), *J.*, XXXVI., 1932, Jan., p. 78.
The effect of high velocity bullets on armour (Abstract from *Army Ord.*, Sept.-Oct., 1931), *J.*, XXXVI., 1932, Jan., p. 78.
The development of anti-aircraft artillery (Abstract from *Rev. F. Aer.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 78.
Anti-aircraft guns (Abstract from *Army Ord.*, Vol. 12, No. 69), *J.*, XXXVI., 1932, April, p. 349.
Best use of training grounds for aerial machine gun practice on towed targets and bombing practice (Abstract from *Rev. F. Aer.*, Oct., 1931), *J.*, XXXVI., 1932, April, p. 349.
Pivoting of guns (Abstract from *Z.V.D.I.*, May, 1931), *J.*, XXXVI., 1932, June, p. 486.
A recording theodolite (Abstract from *Army Ord.*, Vol. 12, No. 70), *J.*, XXXVI., 1932, June, p. 477.
Accuracy in bombing (Abstract from *Rev. F. Aeriennes*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 896.
Ballistic engineering problems (Abstract from *U.S. Naval Inst. Proc.*, March, 1932), *J.*, XXXVI., 1932, Oct., p. 896.
Demolition bombs (Abstract from *Army Ord.*, Vol. 12, No. 71), *J.*, XXXVI., 1932, Oct., p. 896.
Vision from tanks (Abstract from *Army Ord.*, Vol. 12, No. 71), *J.*, XXXVI., 1932, Oct., p. 914.

CORROSION, *see* Materials, Corrosion.

CRANKSHAFTS, *see* also Engines.

Torsional oscillations in multiple crankshafts (Abstract from *Z.A.M.M.*, Oct., 1929), *J.*, XXXVI., 1932, Jan., p. 73.

Porter's method for calculating natural frequencies of torsional vibration in crankshafts (Abstract from *Z.V.D.I.*, March, 1931), *J.*, XXXVI., 1932, Jan., p. 73.

Fractures due to vibration (Abstract from *Rev. S.G.A.*, July, 1931), *J.*, XXXVI., 1932, Jan., p. 74.

Critical speeds of crankshafts (Abstract from *Auto. Zeit.*, Sept., 1931), *J.*, XXXVI., 1932, Jan., p. 73.

Vibrating dampers for crankshafts (Abstract from *Z.V.D.I.*, Aug., 1931), *J.*, XXXVI., 1932, June, p. 481.

Practical investigation of torsional oscil'ations (Abstract from *Z.F.M.*, Feb., 1932), *J.*, XXXVI., 1932, June, p. 481.

Influence of method of fuel supply on torsional oscillations. Relation between order of firing a nine-cylinder engine and torsional oscillations (Abstract from *Autom. Tech. Zeit.*, Nov., 1931), *J.*, XXXVI., 1932, June, p. 482.

Forces on crank pins (Abstract from *Autom. Tech. Zeit.*, Vol. 34, 1931, Nos. 27, 28, 30, 33, 34, 35 and 36), *J.*, XXXVI., 1932, June, p. 482.

Crankshaft failures in civil aviation (Abstract from *Autom. Tech. Zeit.*, Jan., 1932), *J.*, XXXVI., 1932, June, p. 481.

Distribution of stresses in single cranks (Abstract from *Z.V.D.I.*, May, 1932), *J.*, XXXVI., 1932, October, p. 893.

Resonance amplitudes in torsional oscillations in crankshafts (Abstract from *Z.V.D.I.*, May 1932), *J.*, XXXVI., 1932, October, p. 893.

DENNE, R. A.

Aircraft and the fire problem, *J.*, XXXVI., 1932, May, p. 433.

DICKSEE, C. B., A.M.I.MECH.E., M.I.A.E.

Some problems connected with high-speed compression-ignition engine development, *J.*, XXXVI., 1932, Sept., p. 733.

DIESEL ENGINES, *see* Engines, Heavy Oil.

DIRECTION FINDING, *see* Wireless.

DOWSETT, W. F.

Some notes on the design of aeroplane control surfaces and control systems, *J.*, XXXVI., 1932, November, p. 963.

ELECTIONS.

Of members, 1932, p. 1015.

ENDOWMENT FUND.

Acknowledgments, p. 1027.

ENGINES, AIRSCREWS, *see* also Crankshafts; Fuels.

ENGINES, GENERAL.

Air-cooled cylinder head design (Abstract from *S.A.E.*, July, 1931), *J.*, XXXVI., 1932, Jan., p. 73.

American engines in Argentine (Abstract from *Auto. Ind.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 90.

The Baer rotary valve for I.C. engines (Abstract from *Auto. Tech. Zeit.*, June 30, 1931), *J.*, XXXVI., 1932, Jan., p. 72.

Cartridge starter for aircraft engines (Abstract from *Army Ord.*, Sept.-Oct., 1931), *J.*, XXXVI., 1932, Jan., p. 78.

Chemical valency in the light of the theory of wave mechanics (Abstract from *Z.V.D.I.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 69.

Forces on engine mounting in spin (Abstract from *Flight*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 71.

Investigation on combustion in the four-stroke engine (Abstract from *Auto. Tech. Zeit.*, April, 1931), *J.*, XXXVI., 1932, Jan., p. 70.

Schlieren method of photography of air disturbances (Abstract from *Rev. Sci. Inst.*, Sept., 1931), *J.*, XXXVI., 1932, Jan., p. 70.

Stroke bore ratio (Abstract from *Auto. Eng.*, Sept., 1931), *J.*, XXXVI., 1932, Jan., p. 73.

Engine vibration, *J.*, XXXVI., 1932, March, p. 214.

Torsional vibration—damping devices (Abstract from *S.A.E. J.*, Vol. 29, No. 6), *J.*, XXXVI., 1932, April, p. 346.

New working method for carburettor engines (Abstract from *Z.V.D.I.*, Jan., 1932), *J.*, XXXVI., 1932, June, p. 480.

Reduction gear (Abstract from *L'Aeron.*, Feb., 1932), *J.*, XXXVI., 1932, June, p. 485.

The Pratt and Whitney petrol injection engine (Abstract from *L'Aeron.*, Feb., 1932), *J.*, XXXVI., 1932, June, p. 481.

Piston ring mounting (Abstract from *L'Aeron.*, Jan., 1932), *J.*, XXXVI., 1932, June, p. 482.

Investigation of the knocking of carburettor engines (Abstract from *Z.V.D.I.*, May, 1931), *J.*, XXXVI., 1932, June, p. 485.

Fuel injection system (Abstract from *U.S. Air Services*, Feb., 1932), *J.*, XXXVI., 1932, June, p. 485.

The design of turbo-blowers (Abstract from *Z.V.D.I.*, May, 1931), *J.*, XXXVI., 1932, June, p. 480.

Elastic coupling for shafts (Abstract from *Z.V.D.I.*, Aug., 1931), *J.*, XXXVI., 1932, June, p. 485.

Engine temperature indicator (Abstract from *Aero. Digest*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 891.

Engine mounting stresses (Abstract from *Flight*, May, 1932), *J.*, XXXVI., 1932, Oct., p. 891.

The efficiency of energy transmission by resonance (Abstract from *Z.V.D.I.*, May, 1932), *J.*, XXXVI., 1932, Oct., p. 895.

Aero engine accessories, by W. L. Taylor, A.F.R.Ae.S., *J.*, XXXVI., 1932, Oct., p. 828.

Coal dust engine—ignition and combustion process (Abstract from *Fuel*, Vol. II., Nos. 5 and 6), *J.*, XXXVI., 1932, Oct., p. 895.

Cowling (Abstract from *N.A.C.A. Report No.* 414), *J.*, XXXVI., 1932, Oct., p. 893.

Indicator diagrams, I.C. engines, graphical analysis (Abstract from *Proc. Roy. Soc., Edinburgh*, Vol. 52, Pt. 2), *J.*, XXXVI., 1932, Oct., p. 891.

Measurement of power of air-cooled engines (Abstract from *L'Aeron.*, March, 1932), *J.*, XXXVI., 1932, Oct., p. 899.

Multiple engine arrangements (Abstract from *Z.F.M.*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 891.

New cylinder for Wright engines (Abstract from *L'Aeronautique*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 893.

Performance of an I.C. engine running on a mixture of benzol and water (Abstract from *Z.V.D.I.*, Sept., 1931), *J.*, XXXVI., 1932, Oct., p. 895.

Pratt and Whitney "Hornet" type B1 (Abstract from *L'Aeronautique*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 892.

Purifying exhaust gases of internal combustion engines (Abstract from *Chem. Absts.*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 896.

The Schwartz cycle engine (Abstract from *Autom. Topics*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 893.

Steam power plant for aeroplanes (Abstract from *Aviation Engineering*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 893.

ENGINES, COMPRESSION-IGNITION, *see* also Engines, Heavy Oil.

Fuel pumps (Abstract from *L'Aeron.*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 349.

Hydraulics of fuel injection pumps for compression-ignition engine (Abstract from *N.A.C.A. Report No.* 396), *J.*, XXXVI., 1932, April, p. 349.

ENGINES, COOLING.

Water tube radiators (Abstract from *Forschungsheft* 342, March, 1931), *J.*, XXXVI., 1932, Jan., p. 75.

Water cooling (Abstract from *L'Aeron.*, Oct., 1931), *J.*, XXXVI., 1932, Jan., p. 74.

Mechanism of heat transmission (Abstract from *Ind. and Eng. Chem.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 74.

Engine cooling (Abstract from *Army and Navy Register*, Sept., 1931), *J.*, XXXVI., 1932, Jan., p. 75.

Franklin air-cooled engines adapted to U.S.A. army tanks (Abstract from *Radco Auto. Rev.*, June, 1931), *J.*, XXXVI., 1932, Jan., p. 74.

Heat flow in cooling ribs (Abstract from *F.G.I.*, July, 1931), *J.*, XXXVI., 1932, Jan., p. 74.

Heat transfer and pressure drop in empty baffled and packed tubes (Abstract from *Ind. and Eng. Chem.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 74.

Heat transfer in streamline flow (Abstract from *Ind. and Eng. Chem.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 74.

The principles of heat transfer (Abstract from *Z.V.D.I.*, Vol. 75, No. 30), *J.*, XXXVI., 1932, April, p. 346.

Piston cooling (Abstract from *L'Aeron.*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 347.

High temperature cooling of engines (Abstract from *Z.F.M.*, Vol. 22, No. 18), *J.*, XXXVI., 1932, April, p. 347.

High temperature liquid cooling of aero engines (Abstract from *Flugsport*, Oct., 1931), *J.*, XXXVI., 1932, April, p. 347.

High temperature liquid-cooled aircraft (Abstract from *Aero. Digest*, March, 1932), *J.*, XXXVI., 1932, June, p. 483.

ENGINES, HEAVY OIL.

The compression stroke of the pre-combustion chamber oil ignition engine (Abstract from *Z.V.D.I.*, Aug., 1931), *J.*, XXXVI., 1932, June, p. 481.

Co-operation of pumps and nozzles in compressionless Diesel engines (Abstract from *Z.V.D.I.*, Feb., 1931), *J.*, XXXVI., 1932, Jan., p. 72.

Will the auto-Diesel prevail? (Abstract from *Machine Design*, July, 1931), *J.*, XXXVI., 1932, Jan., p. 72.

Oil film temperatures on Diesel engine piston rings (Abstract from *Diesel Power*, May, 1931), *J.*, XXXVI., 1932, Jan., p. 72.

New light-weight Diesel engine (Abstract from *Auto. Tech. Zeit.*, June, 1931), *J.*, XXXVI., 1932, Jan., p. 72.

Mobile Diesel engine of Motorenwerke Mannheim A.G. (Abstract from *Auto. Tech. Zeit.*, Sept., 1931), *J.*, XXXVI., 1932, Jan., p. 71.

The future of the Diesel engine (Abstract from *Auto. Abst.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 72.

Diesel engine evaluated (Abstract from *S.A.E. Journal*, July, 1931), *J.*, XXXVI., 1932, Jan., p. 72.

European development of light-weight Diesel engines (Abstract from *Diesel Power*, July, 1931), *J.*, XXXVI., 1932, Jan., p. 72.

Fuel injection with spark ignition (Abstract from *S.A.E. Journal*, Jan., 1932), *J.*, XXXVI., 1932, April, p. 348.

Injection and combustion in heavy oil engines (Abstract from *Auto. Ind.*, Oct., 1931), *J.*, XXXVI., 1932, April, p. 345.

The motor car Diesel engine (Abstract from *Z.V.D.I.*, Vol. 75, No. 36), *J.*, XXXVI., 1932, April, p. 348.

Two new Maybach C.I. engines (Abstract from *Autom. Tech. Zeit.*, Oct., 1931), *J.*, XXXVI., 1932, June, p. 480.

Jerk pump injection for C.I. engines (Abstract from *Autom. Eng.*, Jan., 1932), *J.*, XXXVI., 1932, June, p. 485.

High-speed Diesel engine (Abstract from *Z.V.D.I.*, March, 1932), *J.*, XXXVI., 1932, June, p. 481.

Effect of orifice length-diameter ratio on fuel sprays for C.I. engines (Abstract from *N.A.C.A. Report No.* 402), *J.*, XXXVI., 1932, June, p. 479.

Development of heavy oil engines for cars and aircraft (Abstract from *Autom. Tech. Zeit.*, Oct., 1931), *J.*, XXXVI., 1932, June, p. 480.

Some problems connected with high-speed compression-ignition engine development, by C. B. Dicksee, A.M.I.Mech.E., M.I.A.E., *J.*, XXXVI., 1932, Sept., p. 733.

Diesel-engined trucks cross Sahara Desert (Abstract from *Motor Transport*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 892.

Guiberson 185-h.p. Diesel engine (Abstract from *Aero. Digest*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 892.

Modification to Packard Diesel (Abstract from *L'Aeronautique*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 892.

ENGINES, LUBRICATION.

Ratio of oil consumption to mileage (Abstract from *S.A.E. Journal*, June, 1931), *J.*, XXXVI., 1932, Jan., p. 76.

The artificial ageing of special mineral oils (Abstract from *New Int. Assoc. Testing Materials*), *J.*, XXXVI., 1932, Jan., p. 76.

Bearing loads and lubrication (Abstract from *S.A.E. Journal*, Oct., 1931), *J.*, XXXVI., 1932, Jan., p. 75.

Chemical composition of lubricating oils (Abstract from *Erdol und Teer*, Vol. VII., 1931), *J.*, XXXVI., 1932, Jan., p. 76.

Contribution to the study of ageing of special oils (Abstract from *Chimie and Industrie*, March, 1931), *J.*, XXXVI., 1932, Jan., p. 76.

The development of the theory of bearing lubrication during the last five years (Abstract from *Z.V.D.I.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 75.

The friction of well-lubricated bearings (Abstract from *Auto. Ind.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 75.

Phenomena of lubrication in bearings (Abstract from *Forschungsheft*, Jan.-Feb., 1932), *J.*, XXXVI., 1932, June, p. 484.

Lubricating oil at low temperature (Abstract from *Z.V.D.I.*, Jan., 1932), *J.*, XXXVI., 1932, June, p. 483.

Oil pipe coupling (Abstract from *Autom. Tech. Zeit.*, May, 1931), *J.*, XXXVI., 1932, June, p. 499.

Oxidation characteristics of turbine oils (Abstract from *Power*, Vol. 75), *J.*, XXXVI., 1932, Oct., p. 894.

Oxidation of mineral oils (Abstract from *J. Soc. Chem. Ind., Japan*, Vol. 34), *J.*, XXXVI., 1932, Oct., p. 894.

The utilisation of castor oil as a lubricant (Abstract from *Chem. Abs.*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 894.

ENGINES, RADIATORS.

Wing radiator development (Abstract from *Aeron. Eng.*, March, 1932), *J.*, XXXVI., 1932, June, p. 483.

ENGINES, SUPERCHARGING.

Effect of valve timing on performance of a supercharged engine at altitude, and an unsupercharged engine at sea level (Abstract from *N.A.C.A. Report No.* 390), *J.*, XXXVI., 1932, Jan., p. 71.

The turbo supercharger (Abstract from *S.A.E. Journal*, Oct., 1931), *J.*, XXXVI., 1932, Jan., p. 71.

Supercharging (Abstract from *Aer. Eng.*, Vol. 4, No. 1), *J.*, XXXVI., 1932, June, p. 480.

FABRICS.

Fabrics in aviation (Abstract from *Airc. Eng.*, Sept., 1931), *J.*, XXXVI., 1932, Jan., p. 80.

FAIREY, C. R.

Re-elected President, p. 270, 1013.

FARREN, W. S., M.B.E., M.A., F.R.Ae.S., M.I.Ae.E.

Air flow, with demonstrations on the screen by means of smoke, *J.*, XXXVI., 1932, June, p. 451.

FEARN, E. J., M.Sc., A.F.R.Ae.S.

The critical diameter of the carburettor choke in supercharged engines, *J.*, XXXVI., 1932, May, p. 444.

FIRE PREVENTION.

Fire insurance costs (Abstract from *Aviation*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 91.

Aircraft and the fire problem, by R. A. Denne, *J.*, XXXVI., 1932, May, p. 433.

Prevention of fire hazard due to backfires (Abstract from *N.A.C.A. Report No.* 409), *J.*, XXXVI., 1932, Oct., p. 905.

Stored combustibles, protection against fire (Abstract from *Chem. and Ind.*, July, 1932), *J.*, XXXVI., 1932, Oct., p. 905.

FLUID MOTION, *see* also Aerodynamics; Hydrodynamics.

Stability of laminar motion of viscous fluids (Abstract from *Phil. Mag.*, March, 1932), *J.*, XXXVI., 1932, June, p. 493.

Slow motion of fluids (Abstract from *Phil. Mag.*, March, 1932), *J.*, XXXVI., 1932, June, p. 494.

Quasi-laminar flow (Abstract from *Bell Tele.*, B632), *J.*, XXXVI., 1932, June, p. 494.

Physical concepts of plastic flow (Abstract from *Bell Tele. B.* 633), *J.*, XXXVI., 1932, June, p. 494.

Flow in roughened tubes (Abstract from *Z.A.M.M.*, Dec., 1931), *J.*, XXXVI., 1932, June, p. 495.

Flow through nozzles and orifices (Abstract from *Z.V.D.I.*, Jan., 1931), *J.*, XXXVI., 1932, June, p. 495.

Flow of gases at low pressures (Abstract from *Phys. Zeit.*, Feb., 1932), *J.*, XXXVI., 1932, June, p. 496.

The flow of gases through throttling devices (Abstract from *Forschung*, Jan-Feb., 1932), *J.*, XXXVI., 1932, June, p. 496.

Flow of compressible liquid in a wind channel (Abstract from *Proc. Roy. Soc.*, March, 1932), *J.*, XXXVI., 1932, June, p. 495.

Equations of motion of a viscous fluid (Abstract from *Phil. Mag.*, March, 1932), *J.*, XXXVI., 1932, June, p. 494.

The divergence of the flow from the surface in a turbulent boundary layer (Abstract from *Z.F.M.*, June, 1932), *J.*, XXXVI., 1932, Oct., p. 909.

Eddies in a viscous fluid with transverse velocity gradient (Abstract from *Ann. der Phys.*, Vol. 13, No. 1), *J.*, XXXVI., 1932, Oct., p. 907.

The effect of temperature on skin friction (Abstract from *Engineering*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 910.

Experimental determination of the boundary layer (Abstract from *Z.F.M.*, May, 1932), *J.*, XXXVI., 1932, Oct., p. 910.

Flow of highly rarefied gases through tubes (Abstract from *Ann. der Phys.*, Vol. 12 No. 8), *J.*, XXXVI., 1932, Oct., p. 909.

Motion of fluid in the boundary layer of a rotating disc (Abstract from *Forschung*, Vol. 2, No. 9), *J.*, XXXVI., 1932, Oct., p. 909.

Transport of vorticity and heat through fluids in turbulent motion (Abstract from *Proc. Roy. Soc.*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 908.

Turbulent flow, observation with an ultramicroscope (Abstract from *Proc. Roy. Soc.*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 907.

FLYING BOATS.

Metal hulls, design and construction (Abstract from *Eng. Jnal.* (Supt. to *J.* of *R. Ae.S.*), *No* 2), *J.*, XXXVI., 1932, Oct., p. 886.

In a flying boat across the Greenland ice cap to U.S.A., by Commander W. von Gronau, *J.*, XXXVI., 1932, November, p. 917.

FOG, *see* Meteorology; Fog.

FUELS, GENERAL.

Spray-tip penetration (Abstract from *N.A.C.A. Tech. Note, No.* 384), *J.*, XXXVI., 1932, Jan., p. 77.

Experiments on a centrifugal pump (Abstract from *F.G.I.*, July, 1931), *J.*, XXXVI., 1932, Jan., p. 77.

Distribution and penetration of a spray: Effect of high air velocities (Abstract from *N.A.C.A. Tech. Note, No.* 376), *J.*, XXXVI., 1932, Jan., p. 77.

Aeroplane fuel-line temperatures (Abstract from *S.A.E. Journal*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 77.

Apparatus for observation of the phenomena of injection and combustion (Abstract from *C.R.*, July, 1931), *J.*, XXXVI., 1932, Jan., p. 77.

Fuels for aircraft engines, by F. R. Banks, A.F.R.Ae.S., *J.*, XXXVI., 1932, Feb., p. 127.

Sensitive flames (Abstract from *Phil. Mag.*, Jan., 1932), *J.*, XXXVI., 1932, April, p. 345.

Safety fuel "Ferrier" (Abstract from *Luftwacht*, Oct., 1931), *J.*, XXXVI., 1932, April, p. 347.

Peroxide and gum in gasoline (Abstract from *Ind. and Eng. Chem.*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 348.

Coal dust explosions (Abstract from *Z.V.D.I.*, Vol. 75, No. 28), *J.*, XXXVI., 1932, April, p. 345.

The effect of the rate of mixing of air and fuel gas on the combustion in flues and furnaces (Abstract from *Chem. and Ind.*, Vol. 50, No. 51), *J.*, XXXVI., 1932, April, p. 345.

Engine combustion, spectroscopic studies (Abstract from *Fuel*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 346.

Flame temperatures (Abstract from *Phil. Mag.*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 345.

W.V. piston fuel pump (Abstract from *Autom. Tech. Zeit.*, May, 1931), *J.*, XXXVI., 1932, June, p. 485.

Total heats and specific heats of synthetic paraffinic distillates and some petroleum fractions (Abstract from *Fuel*, March, 1932), *J.*, XXXVI., 1932, June, p. 484.

Rationalisation of fuel consumption (Abstract from *Autom. Tech. Zeit.*, Dec., 1931), *J.*, XXXVI., 1932, June, p. 484.

Low temperature tars (Abstract from *J. Soc. Chem. Ind.*, Feb., 1932), *J.*, XXXVI., 1932, June, p. 484.

Compression ignition characteristics of ignition-engine fuels (Abstract from *S.A.E. Journal*, March, 1932), *J.*, XXXVI., 1932, June, p. 484.

Solidified liquid fuel (Abstract from *Chem. and Ind.*, July, 1932), *J.*, XXXVI., 1932, Oct., p. 894.

Bosch combined governor and fuel pump (Abstract from *Autom. Ind.*, Vol. 66, No. 25), *J.*, XXXVI., 1932, Oct., p. 895.

Coal gas engine fuel (Abstract from *Motor Transport*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 894.

Oxidation of petroleum oils in presence of analytically inappreciable catalysts (Abstract from *J. Russian Chem. Soc.*, Vol. 1, p. 704), *J.*, XXXVI., 1932, Oct., p. 894.

Separation of normal decane from petroleum by distillation (Abstract from *Bur. St. J. Res.*, May, 1932), *J.*, XXXVI., 1932, Oct., p. 894.

FUELS, CARBURETTORS.

Single-jet carburettor (Abstract from *C.R.*, Vol. 193, No. 17), *J.*, XXXVI., 1932, April, p. 348.

The critical diameter of the carburettor choke in supercharged engines, by E. J. Fearn, M.Sc. (Eng.), A.F.R.Ae.S., *J.*, XXXVI., 1932, May, p. 444.

Carburettor (Abstract from *L'Aeron.*, Feb., 1932), *J.*, XXXVI., 1932, June, p. 485.

The effect of increased carburettor pressure on engine performance at several compression ratios (Abstract from *N.A.C.A. Report No.* 404), *J.*, XXXVI., 1932, June, p. 480.

FUELS, DETONATION & PRE-IGNITION.

Sound intensity in relation to knock ratings (Abstract from *S.A.E. Journal*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 76.

Measurement of intensity of knock noises (Abstract from *Auto. Tech. Zeit.*, July, 1931), *J.*, XXXVI., 1932, Jan., p. 76.

The effect of an electric field on flames and their propagation (Abstract from *Fuel*, July, 1931), *J.*, XXXVI., 1932, Jan., p. 70.

The effect of an electrical field on the propagation of flame (Abstract from *Fuel*, July, 1931), *J.*, XXXVI., 1932, Jan., p. 70.

Electrical determination of the velocity of ignition in an internal combustion engine (Abstract from *F.G.I.*, June, 1931), *J.*, XXXVI., 1932, Jan., p. 70.

Empirical equation for real gas (Abstract from *F.G.I.*, July, 1931), *J.*, XXXVI., 1932, Jan., p. 71.

Flame progress in engine cylinder (Abstract from *N.A.C.A. Report No.* 399), *J.*, XXXVI., 1932, April, p. 345.

Knock ratings, influence of carburettor setting and spark timing (Abstract from *S.A.E. Journal*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 76.

Photographic study of detonation (Abstract from *Autom. Ind.*, Vol. 63, No. 15), *J.*, XXXVI., 1932, April, p. 348.

Process of combustion with spark ignition (Abstract from *Z.V.D.I.*, Jan., 1932), *J.*, XXXVI., 1932, June, p. 479.

Manometry of explosions (Abstract from *Fuel*, March, 1932), *J.*, XXXVI., 1932, June, p. 477.

Photographic investigation of flame movements in gaseous explosions (Abstract from *Phil. Trans. of Royal Soc.*, Dec., 1931), *J.*, XXXVI., 1932, June, p. 479.
Combustion in a high speed C.I. engine (Abstract from *N.A.C.A. Report No.* 401), *J.*, XXXVI., 1932, June, p. 479.
Combustion process in I.C. engines, electrical method of investigation (Abstract from *Z.F.M.*, Sept., 1931), *J.*, XXXVI., 1932, June, p. 479.
Internal combustion engine detonation (Abstract from *Oil and Gas J.*, Vol. 30, No. 33), *J.*, XXXVI., 1932, Oct., p. 895.
Knock rating of fuels—comparative engine tests (Abstract from *Erdol and Teer*, Vol. 7), *J.*, XXXVI., 1932, Oct., p. 895.

FUSELAGES.
Torsion calculations of a fuselage (Abstract from *Flight*, June, 1932), *J.*, XXXVI., 1932, Oct., p. 886.

GASES.
Ignition of carbonic-oxide-air detonating gas (Abstract from *Proc. Roy. Soc.*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 346.
New method of measuring temperatures of a flowing gas (Abstract from *Ann. d. Phys.*, Sept., 1931), *J.*, XXXVI., 1932, April, p. 346.
Electrolytic generator for large quantities of hydrogen and oxygen (Abstract from *Z.V.D.I.*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 900.

GERARD, I. J., M.Sc., ASSOC.M.INST.C.E., A.F.R.Ae.S.
Mechanical tests of aircraft structural components, *J.*, XXXVI., 1932, Sept., p. 673.

GIACOMELLI, R., A.F.R.Ae.S.
Flight in nature and in science, *J.*, XXXVI., 1932, July, p. 578.

GLIDERS AND GLIDING.
Gliding, Eleventh Rhön Competition Report (Abstract from *Z.F.M.*, March, 1931), *J.*, XXXVI., 1932, April, p. 359.
Results of Rhön Gliding Competition, 1931 (Abstract from *Z.F.M.*, Feb., 1932), *J.*, XXXVI., 1932, June, p. 491.
Gliders towed by motor car (Abstract from *Luftwacht*, May, 1932), *J.*, XXXVI., 1932, Oct., p. 906.
Towed flight (Abstract from *Z.V.D.I.*, May, 1932), *J.*, XXXVI., 1932, Oct., p. 906.

GRAHAM, LT.-CMDR. R. R., R.N.
Safety devices in wings of birds, *J.*, XXXVI., 1932, Jan., pp. 24-58.

GRONAU, COMMANDER W. VON.
In a flying boat across the Greenland Ice Cap to U.S.A., *J.*, XXXVI., 1932, Nov., p. 917.

GUGGENHEIM, HARRY.
Presentation to, p. 1033.

GYROPLANES.
New type of gyroplane (Abstract from *Aircr. Eng.*, Dec., 1931), *J.*, XXXVI., 1932, April, p. 359.

HEAT TRANSMISSION.
Interchange of heat between pipe and water (Abstract from *Forschung*, Sept., 1931), *J.*, XXXVI., 1932, June, p. 482.
New American investigation of heat transference and laminar flow (Abstract from *Forschung*, Vol. 3, No. 1), *J.*, XXXVI., 1932, June, p. 483.
Transference of heat from a hot tube to water (Abstract from *Forschung*, Vol. 3, No. 1), *J.*, XXXVI., 1932, June, p. 483.
American measurements of heat transfer in laminar flow (Abstract from *Forschung*, Vol. 3, No. 1), *J.*, XXXVI., 1932, Oct., p. 908.
Heat transfer from a horizontal pipe to a stream of water (Abstract from *Forschung*, Vol. 3, No. 1), *J.*, XXXVI., 1932, Oct., p. 908.

HYDRODYNAMICS, *see* also Aerodynamics; Fluid Motion.
The coefficients of flow through standard diaphragms (throttle plates) (Abstract from *F.G.I.*, June, 1931), *J.*, XXXVI., 1932, Jan., p. 88.
Development of turbulence in flow along pipes (Abstract from *F.G.I.*, March, 1931), *J.*, XXXVI., 1932, Jan., p. 88.
Experimental hydrodynamics (Abstract from *C.R.*, June, 1931), *J.*, XXXVI., 1932, Jan., p. 88.
Hydromechanics (Abstract from *C.R.*, June, 1931), *J.*, XXXVI., 1932, Jan., p. 88.
The flow in a water turbine (Abstract from *Forschungsheft*, Oct., 1931), *J.*, XXXVI., 1932, June, p. 494.
A form of free jet of small contraction with axial symmetry (Abstract from *Z.A.M.M.*, Feb., 1932), *J.*, XXXVI., 1932, Oct., p. 908.
Ship waves (Abstract from *Proc. Roy. Soc.*, June, 1932), *J.*, XXXVI., 1932, Oct., p. 910.

ICE FORMATION, *see* Aeroplanes, General.

INSTRUMENTS.
Vibrograph (Abstract from *Instr. World*, Nov., 1931), *J.*, XXXVI., 1932, Jan., p. 68.
Siemen's universal oscillograph (Abstract from *Z.V.D.I.*, May, 1931), *J.*, XXXVI., 1932, Jan., p. 67.
The present position and limit of optical projection (Abstract from *Z.V.D.I.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 68.
Measurement of amplitude of rigid body vibration (Abstract from *Ann. der Phys.*, Vol. 11, No. 2, 1931), *J.*, XXXVI., 1932, Jan., p 68.

Ionisation manometer (Abstract from *Bell Tele. Lab.*, Sept., 1931), *J.*, XXXVI., 1932, Jan., p. 68.
Cathode ray compass (Abstract from *Luftwacht*, July, 1931), *J.*, XXXVI., 1932, Jan., p. 68.
Askania photographic trajectory recorder (Abstract from *L'Aeron.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 69.
Aircraft instruments, damping liquids (Abstract from *N.A.C.A. Report No.* 398), *J.*, XXXVI., 1932, April, p. 343.
The Braun altimeter (Abstract from *Luftwacht*, Oct., 1931), *J.*, XXXVI., 1932, April, p. 344.
Cathode ray oscillograph (Abstract from *J. Franklin Inst.*, Dec., 1931), *J.*, XXXVI., 1932, April, p. 343.
Linear time axis for a Cathode ray oscillograph (Abstract from *Bell Tele. No.* B605, 1931), *J.*, XXXVI., 1932, April, p. 343.
A rapid record oscillograph (Abstract from *Bell Tele.* B609, 1931), *J.*, XXXVI., 1932, April, p. 343.
Calibration of pitot-static tube at low Reynolds numbers (Abstract from *Proc. Roy. Soc.*, May, 1932), *J.*, XXXVI., 1932, Oct., p. 887.
Cathode ray oscillograph (Abstract from *Phil. Mag.*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 888.
Chronometers; stabilisation of lubricating oil (Abstract from *Comptes Rendus*, Vol. 192), *J.*, XXXVI., 1932, Oct., p. 888.
The deformator (Abstract from *Z.V.D.I.*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 888.
A new electrophotometer for measurement of turbidity of liquids (Abstract from *Z.V.D.I.*, May, 1932), *J.*, XXXVI., 1932, Oct., p. 914.
The pioneer vibrograph (Abstract from *Z.V.D.I.*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 888.
Rapid measurement of varying forces (Abstract from *Z.V.D.I.*, May, 1932), *J.*, XXXVI., 1932, Oct., p. 888.
Schopper textile testing instrument (Abstract from *Inst. World*, June, 1932), *J.*, XXXVI., 1932, Oct., p. 899.

IRVING, H. B., B.Sc., A.F.R.Ae.S. AND A. V. STEPHENS.
Safety in spinning, *J.*, XXXVI., 1932, March, p. 145.

LACHMANN, DR.-ING., G. V., A.F.R.Ae.S.
Control beyond the stall, *J.*, XXXVI., 1932, April, p. 275.
Slots and the wings of birds, *J.*, XXXVI., 1932, April, p. 374.

LAMPLUGH, A. G., CAPT., F.R.Ae.S., M.I.Ae.E.
Accidents in civil aviation, *J.*, XXXVI., 1932, Feb., p. 93.

LIBRARY.
Additions, 1932, p. 1039.

LIGHT ALLOYS, *see* Materials, Light Alloys.

LIGHTING AERODROMES & AIR ROUTES, *see* Aerodromes, Civil Aviation.

LIGHTING.
Illumination practice, recent development (Abstract from *Z.V.D.I.*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 360.

LUBRICATION, *see* Engines, Lubrication.

MAGNESIUM, *see* Materials, Magnesium.

MATERIALS, GENERAL.
Continuous nitriding (Abstract from *Auto. Ind.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 79.
Heat treatment of chromium plate (Abstract from *Auto. Ind.*, Sept., 1931), *J.*, XXXVI., 1932, Jan., p. 79.
Surface leakage of Pyrex glass (Abstract from *Bell Tele. Lab.*, Sept., 1931), *J.*, XXXVI., 1932, Jan., p. 80.
Development of research in metal construction (Abstract from *Z.F.M.*, Vol. XXII., July, 1931), *J.*, XXXVI., 1932, Jan., p. 62.
Lautal riveting (Abstract from *Z.F.M.*, March, 1931), *J.*, XXXVI., 1932, April, p. 350.
Materials of aircraft construction (Abstract from *Z.F.M.*, Nov., 1931), *J.*, XXXVI., 1932, June, p. 186.
Vacuum casting (Abstract from *Bell Tele. No.* B621), *J.*, XXXVI., 1932, Oct., p. 897.

Tests on tin base and lead base bearing metals (Abstract from *Chem. Absts.*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 897.
Pipe joints without solder (Abstract from *Z.V.D.I.*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 896.
Nitrogen hardening (Abstract from *Engineering*, May, 1932), *J.*, XXXVI., 1932, Oct., p. 897.
Beryllium (Abstract from *Scientific American*, May, 1932), *J.*, XXXVI., 1932, Oct., p. 898.
Comparison of flow potential and slip theories of plastic strain (Abstract from *Z.A.M.M.*, Feb., 1932), *J.*, XXXVI., 1932, Oct., p. 911.
Elastic hysteresis in iron bars (Abstract from *B. St. J. Res.*, May, 1932), *J.*, XXXVI., 1932, Oct., p. 911.
An engineer's conception of matter and its application to materials of construction, by E. W. Stedman, M.I.C.E., M.E.I.C., F.R.Ae.S., A.R.C.Sc., *J.*, XXXVI., 1932, Oct., p. 861

MATERIALS, ADHESIVE.

Gluing in aircraft construction (Abstract from *S.A.E. Journal*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 80.

MATERIALS, ALUMINIUM.

Protection against corrosion, *J.*, XXXVI., 1932, Jan., p. 9.
Aluminium alloys, protection against corrosion (Abstract from *N.A.C.A. Tech. Note, No.* 400), *J.*, XXXVI., 1932, June, p. 487.
The "Proctal" anti-corrosion treatment for aluminium alloys (Abstract from *L'Aeronautique*, May, 1932), *J.*, XXXVI., 1932, Oct., p. 897.

MATERIALS, CORROSION.

Protection of metal parts of aircraft against corrosion *J.*, XXXVI., 1932, Jan., pp. 1-23.
Corrosion prevention (Abstract from *S.A.E. Journal*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 79.
Porosity of electro-plated chromium coatings (Abstract from *Bur. St. J. Res.*, Oct., 1931), *J.*, XXXVI., 1932, April, p. 351.
Requirements of aeroplane coatings (Abstract from *Ind. and Eng. Chem.*, Vol. 23, No. 12), *J.*, XXXVI., 1932, April, p. 351.
Resistance of galvanic deposits on iron and light alloys to seawater corrosion (Abstract from *Z.F.M.*, March, 1931), *J.*, XXXVI., 1932, April, p. 351.
Theory of metallic corrosion (Abstract from *Proc. Roy. Soc. No.* A823), *J.*, XXXVI., 1932, April, p. 351.
Corrosion protection—oxide films (Abstract from *Z.V.D.I.*, Aug., 1931), *J.*, XXXVI., 1932, June, p. 486.
Corrosion through cavitation in a diffuser (Abstract from *Z.V.D.I.*, May, 1932), *J.*, XXXVI., 1932, Oct., p. 897.
Protective painting tests (Abstract from *J. Soc. Chem. Ind.*, July, 1932), *J.*, XXXVI., 1932, October, p. 897.
Surface coating materials (Abstract from *Chem. and Ind.*, July, 1932), *J.*, XXXVI., 1932, Oct., p. 897.

MATERIALS, DURALUMIN.

Influence of iron in duralumin (Abstract from *Z. f. Metal.*, Sept., 1931), *J.*, XXXVI., 1932, Jan., p. 79.
Duralumin columns of equal angle section, comprehensive strength (Abstract from *N.A.C.A. Tech. Note, No.* 413), *J.*, XXXVI., 1932, Oct., p. 913.

MATERIALS, LIGHT ALLOYS.

Light alloy construction in aircraft (Abstract from *Luftwacht*, Sept., 1931), *J.*, XXXVI., 1932, Jan., p. 62.
Protection against corrosion, *J.*, XXXVI., 1932, Jan., p. 9.
Appearance of blow-holes due to gaseous oxides in aluminium alloys (Abstract from *Z. f. Metallk.*, Oct., 1931), *J.*, XXXVI., 1932, April, p. 350.
Constitution Al-fe-Si alloys rich in aluminium (Abstract from *Z. f. Metallk.*, Aug., 1931), *J.*, XXXVI., 1932, April, p. 350.

MATERIALS, MAGNESIUM.

Protection against corrosion, *J.*, XXXVI., 1932, Jan., p. 12.
Corrosion: Protection of magnesium alloys (Abstract from *Engineering*, Dec., 1931), *J.*, XXXVI., 1932, April, p. 351.
Magnesium alloys (Abstract from *S.A.E. Journal*, March, 1932), *J.*, XXXVI., 1932, June, p. 487.

MATERIALS, RUBBER.

Ageing of rubber diaphragms (Abstract from *N.A.C.A. Tech. Note No.* 409), *J.*, XXXVI., 1932, Oct., p. 898.

MATERIALS, STEEL.

Protection against corrosion, *J.*, XXXVI., 1932, Jan., p. 3.
Properties of steels—use of probability curves (Abstract from *S.A.E. Journal*, Jan., 1932), *J.*, XXXVI., 1932, April, p. 349.
Plastic flow of mild steel (Abstract from *Z.A.M.M.*, Feb., 1932), *J.*, XXXVI., 1932, Oct., p. 911.

MATERIALS, STRENGTH OF.

Torsion in thin cylinders (Abstract from *Flight*, Sept., 1931), *J.*, XXXVI., 1932, Jan., p. 89.
Metal truss wing spars (Abstract from *N.A.C.A. Tech. Note No.* 383), *J.*, XXXVI., 1932, Jan., p. 65.
Elastic instability of structural members (Abstract from *N.A.C.A. Report No.* 382), *J.*, XXXVI., 1932, Jan., p. 65.

Accurate calculation of forces and moments in the members of a framework (Abstract from *Z.A.M.M.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 65.

Buckling of a cylindrical shell under torsion (Abstract from *Aero. Res. Inst., Tokyo*, Dec., 1931, Report No. 76), *J.*, XXXVI., 1932, April, p. 364.

Comparison of weights of trilateral or quadrilateral girders (Abstract from *Z.F.M.*, Vol. 22, No. 12), *J.*, XXXVI., 1932, April, p. 340.

Deformation tests carried out on two 16,000-ton liners (Abstract from *Z.V.D.I.*, July, 1931), *J.*, XXXVI., 1932, April, p. 364.

Influence of rate of deformation on resistance to deformation (Abstract from *Z.V.D.I.*, Dec., 1931), *J.*, XXXVI., 1932, April, p. 364.

Overstrain of metals (Abstract from *Army Ord.*, Dec., 1931), *J.*, XXXVI., 1932, April, p. 364.

Systematic comparison of weights of three-dimensional frame-works (Abstract from *Z.F.M.*, Vol. 22, No. 12), *J.*, XXXVI., 1932, April, p. 341.

Tests of wire nails and wooden joints (Abstract from *Z.V.D.I.*, Oct., 1931), *J.*, XXXVI., 1932, April, p. 352.

Residual stresses in cold drawn tubes (Abstract from *Z. Metallk.*, Feb., 1932), *J.*, XXXVI., 1932, June, p. 497.

Properties of some materials under dynamic loads (Abstract from *Forschung*, Sept., 1931), *J.*, XXXVI., 1932, June, p. 497.

The physical factors determining the path of fatigue fractures (Abstract from *Z.V.D.I.*, Feb., 1932), *J.*, XXXVI., 1932, June, p. 486.

Fatigue tests of nickel tubing for fuel pipes (Abstract from *Autom. Ind.*, Jan., 1932), *J.*, XXXVI., 1932, June, p. 497.

Graphical solution of beam problems (Abstract from *Aero. Digest*, March, 1932), *J.*, XXXVI., 1932, June, p. 474.

Application of soft rubber to the production of graphical stress fields (Abstract from *Forschung*, Sept., 1931), *J.*, XXXVI., 1932, June, p. 499.

Box girders, torsional stiffness, theoretical and experimental investigation (Abstract from *Forschung*, Jan.-Feb., 1932), *J.*, XXXVI., 1932, June, p. 496.

Deflection of beams and struts (Abstract from *Phil. Mag.*, Feb., 1932), *J.*, XXXVI., 1932, Oct., p. 912.

Properties of some materials under reversals of bending loads (Abstract from *Forschung*, Sept., 1931), *J.*, XXXVI., 1932, October, p. 911.

Stability of thin strips of material under shearing forces in the plane of the strip (Abstract from *Proc. Roy. Soc.*, July, 1932), *J.*, XXXVI., 1932, Oct., p. 911.

Strength tests of rods and wires at low temperatures (Abstract from *Z. Metallk.*, May, 1932), *J.*, XXXVI., 1932, Oct., p. 913.

Stress optical investigation of structures (Abstract from *Z.V.D.I.*, May, 1932), *J.*, XXXVI., 1932, Oct., p. 912.

MATERIALS, TESTING

Dynamic tests to destruction of aeroplane parts (Abstract from *Z.F.M.*, Vol. XXII., Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 62.

Testing apparatus and machines (Abstract from *Rev. Sci. Insts.*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 352.

Mechanical tests of aircraft structural components, by I. J. Gerard, M.Sc., Assoc.M. Inst.C.E., A.F.R.Ae.S., *J.*, XXXVI., 1932, September, p. 673.

Testing materials by means of gamma rays (Abstract from *Z.V.D.I.*, Vol. 76, No. 17), *J.*, XXXVI., 1932, Oct., p. 899.

MATERIALS, WELDING.

"Aeration" welding process (Abstract from *Z.V.D.I.*, Vol. 75, No. 44), *J.*, XXXVI., 1932, April, p. 350.

Autogenous and electric welding of monel metal (Abstract from *Z. f. Metallk.*, Oct., 1931), *J.*, XXXVI., 1932, April, p. 350.

Electron and Welding (Abstract from *Autom. Tech. Zeit.*), *J.*, XXXVI., 1932, June, p. 487.

Autogenous welding (Abstract from *Z. Metallk.* Jan., 1932), *J.*, XXXVI., 1932, June, p. 487.

Electric welding (Abstract from *Z.V.D.I.*, May, 1932), *J.*, XXXVI., 1932, Oct., p. 898.

MATERIALS, WOOD.

Technique of bending wood (Abstract from *Z.V.D.I.*, Sept., 1931), *J.*, XXXVI., 1932, April, p. 352.

MATHEMATICS.

A new machine for mechanical solution of differential equations (Abstract from *J. Franklin Inst.*, Oct., 1931), *J.*, XXXVI., 1932, Jan., p. 90.

Mechanical solution of second order linear differential equations (Abstract from *Proc. Camb. Phil. Soc.*, Oct., 1931), *J.*, XXXVI., 1932, April, p. 365.

Symbolic calculus (Abstract from *Phil. Mag.*, March, 1932), *J.*, XXXVI., 1932, June, p. 497.

MEDICAL.

Psychological aspects of aviation (Abstract from *Rev. Aeron.*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 360.

Preventive medicine in its relation to aviation, by E. Goodwin Rawlinson, M.D., D.P.H., *J.*, XXXVI., 1932, April, p. 366.
Aircraft for ambulance service (Abstract from *Tech. Aeron.*, Nov., 1931), *J.*, XXXVI., 1932, June, p. 499.
Military air ambulances (Abstract from *Rev. F. Aero.*, Jan., 1932), *J.*, XXXVI., 1932, June, p. 499.
Physiological sensitivity to vibrations (Abstract from *Forschung*, Nov., 1931), *J.*, XXXVI., 1932, June, p. 492.
Increase of hydrostatic pressure in the blood due to mechanical accelerations (Abstract from *Z.F.M.*, March, 1932), *J.*, XXXVI., 1932, Oct., p. 906.

METEOROLOGY.

Radio tracking of meteorological balloons (Abstract from *Proc. Inst. Rad. Eng.*, Sept., 1931), *J.*, XXXVI., 1932, Jan., p. 84.
Meteorological observation by aeroplane (Abstract from *U.S. Air Services*, Oct., 1931), *J.*, XXXVI., 1932, Jan., p. 84.
Lightning investigation applied to aeroplanes (Abstract from *U.S. Air Services*, Vol. 16, No. 8), *J.*, XXXVI., 1932, Jan., p. 84.
Measurement of vertical wind velocities in the atmosphere (Abstract from *Z.F.M.*, Sept., 1931), *J.*, XXXVI., 1932, April, p. 359.
Release of energy by convection (Abstract from *Journal R. Met. Soc.*, Oct., 1931), *J.*, XXXVI., 1932, April, p. 360.
Forms of stratified clouds (Abstract from *Physik. d. freien Atmosphäre*, Vol. 17, 1930), *J.*, XXXVI., 1932, April, p. 359.
Meteorograph (Abstract from *Z.V.D.I.*, Jan., 1932), *J.*, XXXVI., 1932, June, p. 491.

METEOROLOGY, FOG.

Fog, transmission of visible infra-red and ultra-violet radiation (Abstract from *Aero. Eng.*, March, 1932), *J.*, XXXVI., 1932, June, p. 492.

MISCELLANEOUS.

A chemically inert valve for high vacua (Abstract from *Rev. Sci. Insts.*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 365.
Enfeebling of visible and ultra-red rays through artificial fog and its effect on visibility (Abstract from *Ann. d. Phys.*, Vol. 1, No. 6), *J.*, XXXVI., 1932, April, p. 361.
Gas and dust masks (Abstract from *Z.V.D.I.*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 360.
Preparation of scientific papers (Abstract from *J. Sci. Insts.*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 365.
American ordance depots in France (Abstract from *Army Ord.*, Vol. 12, No. 71), *J.*, XXXVI., 1932, Oct., p. 915.
Comparative measurements of radiation by cells and mirrors (Abstract from *Z. Instrumentenkunde*, May, 1932), *J.*, XXXVI., 1932, Oct., p. 889.
Direct sunlight in interiors (Abstract from *J. Sci. Insts.*, July, 1932), *J.*, XXXVI., 1932, Oct., p. 914.
Strength measurements on complete ships (Abstract from *Z.V.D.I.*, May, 1932), *J.*, XXXVI., 1932, Oct., p. 913.
Table of values of Jacobi's zeta function (Abstract from *Proc. Roy. Soc., Edinburgh*, Vol. 52, pt. 2), *J.*, XXXVI., 1932, Oct., p. 914.

MODELS.

The use of models in research and design, by R. McKinnon Wood, O.B.E., M.A., F.R.Ae.S., *J.*, XXXVI., 1932, Nov., p. 975.

MONEL METAL, *see* Materials, Welding.

NAVIGATION, *see* Aerial Navigation.

NAYLER, J. L.

The effect of accelerations on human beings, *J.*, XXXVI., 1932, March, p. 251.

NICKEL PLATING, *see* Materials, Corrosion.

NIGHT FLYING, *see* Civil Aviation.

NUTT, A. E. WOODWARD, B.A., A.F.R.Ae.S., AND A. F. SCROGGS, B.A., D.I.C., R.A.F.

Some factors affecting the range of aircraft with special reference to height, *J.*, XXXVI., 1932, Aug., p. 604.

OBITUARIES.

Of members, p. 1036.

OIL, *see* Engines, Lubrication.

OPTICS.

Colorimetric systems (Abstract from *Trans. Opt. Soc.*, Vol. 32, No. 1), *J.*, XXXVI., 1932, April, p. 365.
Equivalent colour stimuli (Abstract from *Jnl. Opt. Soc.*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 365.

OWER, E., B.Sc., A.C.G.I., F.R.Ae.S.

Interference, *J.*, XXXVI., 1932, July, p. 531.

PARACHUTES.

Cotton for parachute cloth (Abstract from *N.A.C.A. Tech. Note, No.* 393), *J.*, XXXVI., 1932, Jan., p. 79.

PETROL, *see* Fuels.

PHOTOGRAPHY.

Photograph taken in the dark by infra-red light (Abstract from *Ind. and Eng. Chem.*, Jan., 1932), *J.*, XXXVI., 1932, June, p. 490.

PILOTS AND PILOTING.
The effect of accelerations on human beings, by J. L. Nayler, *J.*, XXXVI., 1932, March, p. 251.
Altitude flying in formation (Abstract from *U.S. Air Services*, Dec., 1931), *J.*, XXXVI., 1932, April, p. 365.
Training of pilots and instructors, by Group Captain J. E. A. Baldwin, D.S.O., O.B.E., A.D.C., *J.*, XXXVI., 1932, Nov., p. 945.

RADIATORS, *see* Engines, Cooling.

RADIATORS, *see* Engines, Radiators.

RAWLINSON, E. GOODWIN, M.D., D.P.H.
Preventive medicine in its relation to aviation, *J.*, XXXVI., 1932, April, p. 366.

RESISTANCE, *see* Aerodynamics.

REVIEWS.
The internal combustion engine, by D. R. Pye; Stainless iron and steel, by J. H. G. Monypenny, *J.*, XXXVI., 1932, Jan., p. 92.
Heavy oil engines of Akroyd type, by W. Robinson, *J.*, XXXVI., 1932, Feb., p. 141.
Year book of the D.V.L. 1931, *J.*, XXXVI., 1932, Feb., p. 141.
Aeroplane construction and repair, by J. E. Younger, *J.*, XXXVI., 1932, Feb., p. 142.
Angles on practical flying, by P. W. F. Mills, *J.*, XXXVI., 1932, Feb., p. 142.
Who's who in aviation, p. 273.
Jane's all the world's aircraft, 1931, p. 273.
The modern diesel, p. 273.
Hydro und aeromechanik, *J.*, XXXVI., 1932, March, p. 274.
Metal aircraft construction; M. Langley, *J.*, XXXVI., 1932, April, p. 382.
Aviation handbook, *J.*, XXXVI., 1932, April, p. 383.
Cinquième Congrès International de la Navigation Aérienne, *J.*, XXXVI., 1932, April, p. 382.
Metallurgy, by Ed. Gregory, *J.*, XXXVI., 1932, May, p. 450.
The airplane and its engine, by Chatfield Taylor, 2nd edition, *J.*, XXXVI., 1932, May, p. 450.
Illustrierte Technische Wörterbücher, by A. Schlomaur, *J.*, XXXVI., 1932, June, p. 530.
The mechanics of flight, by A. C. Kermode, *J.*, XXXVI., 1932, June, p. 530.
Sailplanes, by C. H. Latimer Needham, *J.*, XXXVI., 1932, July, p. 601.
The strength of materials, by John Case, 2nd edition, *J.*, XXXVI., 1932, Sept., p. 788.
The testing of high speed internal combustion engines, by Arthur W. Judge, 2nd edition, *J.*, XXXVI., 1932, Sept., p. 788.
Aviation and the aerodrome, by H. Angley Lewis-Dale, *J.*, XXXVI., 1932, Oct., p. 916.
The two-cycle engine, by C. F. Caunter, *J.*, XXXVI., 1932, Nov., p. 983.
Laws of turbulent flow in smooth pipes, by G. Nikuradse, *J.*, XXXVI., 1932, Dec., p. 1050.
Year book (1932) of the D.V.L., *J.*, XXXVI., 1932, Dec., p. 1050.
The heat treatment and annealing of aluminium and its alloys, by N. F. Budgen, *J.*, XXXVI., 1932, Dec., p. 1051.
International air guide, *J.*, XXXVI., 1932, Dec., p. 1051.

ROBERTS, W. NORMAN, F.R.G.S., A.F.R.Ae.S.
Aerial surveying in Northern Rhodesia, *J.*, XXXVI., 1932, June, p. 500.

ROCKET PROPULSION.
Rocket propulsion for aeroplanes (Abstract from *Flug.*, Nov.-Dec., 1931), *J.*, XXXVI., 1932, June, p. 490.

RUBBER, *see* Materials, Rubber.

SALMON, P., M.I.M.E., M.I.A.E.
Catapults and catapulting by aeroplanes, *J.*, XXXVI., 1932, Sept., p. 704.

SCOTT-HALL, S., M.Sc., D.I.C., A.F.R.Ae.S.
Wheel brakes and undercarriages, *J.*, XXXVI., 1932, May, p. 386.

SCROGGS, A. F., B.A., D.I.C., R.A.F., AND A. E. WOODWARD NUTT, B.A., A.F.R.Ae.S.
Some factors affecting the range of aircraft with special reference to height, *J.*, XXXVI., 1932, Aug., p. 604.

SEAPLANES, GENERAL.
Loading assumptions for landing shocks of seaplanes (Abstract from *Z.F.M.*, July, 1931), *J.*, XXXVI., 1932, Jan., p. 66.
Relation between shipbuilding and seaplane construction (Abstract from *Z.F.M.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 66.
Some thoughts concerning the Schneider Trophy Race (Abstract from *Luftwacht*, Sept., 1931), *J.*, XXXVI., 1932, Jan., p. 90.
Stabilisation of seaplanes on the water by means of Budig stabilising planes (Abstract from *L'Aerophile*, July, 1931), *J.*, XXXVI., 1932, Jan., p. 65.
Seaplane and ship (Abstract from *Z.F.M.*, Vol. 22, No. 17), *J.*, XXXVI., 1932, April, p. 341.
Stresses on floats and hulls during starting and alighting (Abstract from *L'Aerotecnica*, Nov., 1931), *J.*, XXXVI., 1932, June, p. 476.
Wave resistance and its practical application (Abstract from *Z.V.D.I.*, Feb., 1932), *J.*, XXXVI., 1932, June, p. 475.

SEAPLANES, MODEL TESTS.
Model towing tests on seaplane floats (Abstract from *Werft-Reederei-Hafen*, Aug., 1930), *J.*, XXXVI., 1932, June, p. 475.
SLOTS, *see* Bird Flight.

SOUND.
New method of sound frequency analysis (Abstract from *N.A.C.A. Report No.* 395, 1931), *J.*, XXXVI., 1932, April, p. 358.
Measurement of sound transmission (Abstract from *Phil. Mag.*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 357.
Measurement of noise (Abstract from *Z.V.D.I.*, Feb., 1932), *J.*, XXXVI., 1932, June, p. 490.
Phase and amplitude measurements of electrodynamic loud speakers (Abstract from *Phys. Zeit.*, Jan., 1932), *J.*, XXXVI., 1932, June, p. 489.
Acoustic filters (Abstract from *Ann. der Phys.*, Vol. 13, No. 2), *J.*, XXXVI., 1932, Oct., p. 905.
Measurements of high frequency sound absorption in gases (Abstract from *Ann. der Phys.*, May, 1932), *J.*, XXXVI., 1932, Oct., p. 905.
Reverberation time measurement in coupled rooms (Abstract from *Bell Tele.*, B627), *J.*, XXXVI., 1932, Oct., p. 904.
Sensitivity to differences of pitch (Abstract from *Bell Tele.* B621), *J.*, XXXVI., 1932, Oct., p. 904.

STABILITY.
Dangerous lateral instability of an aeroplane near stalling point (Abstract from *Z.F.M.*, July, 1931), *J.*, XXXVI., 1932, Jan., p. 69.
Manœuvrability. Photograph by camera obscura (Abstract from *N.A.C.A. Report No.* 386), *J.*, XXXVI., 1932, Jan., p. 69.
Safety in spinning, by H. B. Irving, B.Sc., A.F.R.Ae.S., and A. V. Stephens, *J.*, XXXVI., 1932, March, p. 145.
Amplitude of vibrations on an aeroplane in flight (Abstract from *Aviation*, Oct., 1931), *J.*, XXXVI., 1932, April, p. 339.
Effect of load distribution along span on rolling stability (Abstract from *N.A.C.A. Report No.* 393), *J.*, XXXVI., 1932, April, p. 344.
Control beyond the stall, by G. V. Lachmann, Dr.-Ing., A.F.R.Ae.S., *J.*, XXXVI., 1932, April, p. 275.
Rudder bias gear (Abstract from *Flight*, Dec., 1931), *J.*, XXXVI., 1932, April, p. 344.
Stability and controllability (Abstract from *Rev. Soc. Aeron.*, Jan., 1932), *J.*, XXXVI., 1932, June, p. 478.
Development of an aeroplane free from autorotation in steep landing (Abstract from *Z.F.M.*, Sept., 1931), *J.*, XXXVI., 1932, June, p. 474.
Lateral stability in unconstrained normal flight and the required technical provisions (Abstract from *Z.F.M.*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 889.
Measurement of the influence of a gap between elevator and fin on static stability and directional controllability (Abstract from *Z.F.M.*, June, 1932), *J.*, XXXVI., 1932, Oct., p. 889.

STABILITY, LONGITUDINAL.
Effect of lift distribution on longitudinal stability (Abstract from *Z.F.M.*, Vol. 22, No. 12), *J.*, XXXVI., 1932, April, p. 344.

STEDMAN, E. W., M.I.C.E., M.E.I.C., F.R.Ae.S., A.R.C.Sc.
An engineer's conception of matter and its application to materials of construction, *J.*, XXXVI., 1932, Oct., p. 861.

STEPHENS, A. V. AND H. B. IRVING, B.Sc., A.F.R.Ae.S.
Safety in spinning, *J.*, XXXVI., 1932, March, p. 145.

STIEGER, H. J., D.I.C., A.F.R.Ae.S.
Wing construction, *J.*, XXXVI., 1932, Oct., p. 789.

SUPERCHARGING, *see* Engines, Supercharging.

SURVEY, AERIAL.
A slide rule for the solution of air photographic problems (Abstract from *Rev. F. Aer.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 89.
Air photography (Abstract from *Rev. F. Aer.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 84.
Air survey (Abstract from *Aero Digest*, Dec., 1931), *J.*, XXXVI., 1932, April, p. 357.
Progress in photogrammetry (Abstract from *Z.V.D.I.*, Aug., 1931), *J.*, XXXVI., 1932, June, p. 490.
Aerial surveying in Northern Rhodesia, by W. Norman Roberts, F.R.G.S., A.F.R.Ae.S., *J.*, XXXVI., 1932, June, p. 500.
Optical requirements of aeroplane mapping (Abstract from *Bur. St. J. Res.*, April, 1932), *J.*, XXXVI., 1932, October, p. 901.

SUTTON, H., M.Sc., A.F.R.Ae.S.
Protection of metal parts of aircraft against corrosion, *J.*, XXXVI., 1932, Jan., pp. 1-23.

TAYLOR, W. L., A.F.R.Ae.S.
Aero engine accessories, *J.*, XXXVI., 1932, Oct., p. 828.

TELEVISION, *see* Wireless.

TORSIONAL VIBRATION, *see* Crankshafts.

TOWNEND, H. C. H., B.Sc.
An automatic variable pitch airscrew, *J.*, XXXVI., 1932, Feb., p. 111.

TURBULENT MOTION, *see* Aerodynamics.

UNDERCARRIAGES.
Static drop and flight tests of Musselman wheels (Abstract from *N.A.C.A. Report No.* 381), *J.*, XXXVI., 1932, Jan., p. 67.
Dynamical investigation of aeroplane landing carriage springs and dampers (Abstract from *Z.V.D.I.*, Vol. 75, No. 45), *J.*, XXXVI., 1932, April, p. 341.
Hydraulic brakes (Abstract from *Aire. Eng.*, Dec., 1931), *J.*, XXXVI., 1932, April, p. 342.
Wheel brakes and undercarriages, by S. Scott Hall, M.Sc., D.I.C., A.F.R.Ae.S., *J.*, XXXVI., 1932, May, p. 386.
Landing carriages: Drop and flight tests (Abstract from *N.A.C.A. Report No.* 406), *J.*, XXXVI., 1932, Oct., p. 886.

VARIABLE PITCH AIRSCREWS, *see* Airscrews.

VIBRATION, *see* also Instruments.
Forced vibrations of wings (Abstract from *Rev. S.G.A.*, July, 1931), *J.*, XXXVI., 1932, Jan., p. 65.
Study of aeroplane vibration (Abstract from *S.A.E. Journal*, Oct., 1931), *J.*, XXXVI., 1932, Jan., p. 62.

VIBRATION, AIRCRAFT.
H. Constant, M.A., A.F.R.Ae.S., *J.*, XXXVI., 1932, March, p. 205.

WARFARE, AERIAL.
Congress inquiry into national air defences (Abstract from *Aviation*, June, 1932), *J.*, XXXVI., 1932, Oct., p. 915.
Defence against air raid (Abstract from *Army Ord.*, Vol. 12, No. 71), *J.*, XXXVI., 1932, Oct., p. 896.
Equipment of air forces (Abstract from *Aviation*, June, 1932), *J.*, XXXVI., 1932, Oct., p. 914.

WATER TANKS.
Flow about ship models (Abstract from *J. Franklin Inst.*, Feb., 1931), *J.*, XXXVI., 1932, June, p. 475.

WELDING, *see* Materials, Welding.

WHEEL BRAKES, *see* Undercarriages.

WIMPERIS, H. E., C.B.E., M.A., F.R.Ae.S.
New methods of research in aeronautics, *J.*, XXXVI., 1932, Dec., p. 985.

WINDMILLS.
Experimental work on the Savonius rotor windmill and related apparatus (Abstract from *F.G.I.*, June, 1931), *J.*, XXXVI., 1932, Jan., p. 67.

WIND TUNNELS.
Compressed air wind tunnel at N.P.L. (Abstract from *Engineering*, Oct., 1931), *J.*, XXXVI., 1932, Jan., p. 80.
N.A.C.A. vertical wind tunnel (Abstract from *N.A.C.A. Report No.* 387), *J.*, XXXVI., 1932, Jan., p. 80.
Wind tunnel tests (Abstract from *Autom. Eng.*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 352.
Wind tunnel correction (Abstract from *L'Aerotecnica*, April, 1931), *J.*, XXXVI., 1932, June, p. 487.
Lift coefficient of a model, effect of walls on a wind tunnel (Abstract from *Rept. Aer. Inst., Tokyo Imperial Uni., No.* 46), *J.*, XXXVI., 1932, June, p. 488.
N.A.C.A. 7 by 10ft. wind tunnel (Abstract from *N.A.C.A. Report No.* 412), *J.*, XXXVI., 1932, Oct., p. 898.
Theory of wind tunnel wall interference (Abstract from *N.A.C.A. Report No.* 410), *J.*, XXXVI., 1932, Oct., p. 898.
The wind channel (free jet type) of the Focke-Wulf Construction Co. (Abstract from *Z.F.M.*, June, 1932), *J.*, XXXVI., 1932, Oct., p. 899.

WIRELESS.
Temperature coefficient of quartz oscillators (Abstract from *Z.H.F.T.*, July, 1931), *J.*, XXXVI., 1932, Jan., p. 83.
Some characteristics of thyratrons (Abstract from *Proc. Inst. Rad. Eng.*, Sept., 1931), *J.*, XXXVI., 1932, Jan., p. 83.
Simultaneous radio-telephone and visual range beacon (Abstract from *Bur. St. J. Res.*, Aug., 1931), *J.*, XXXVI., 1932, Jan., p. 82.
Propagation of short waves over the North Atlantic (Abstract from *Proc. Inst. Rad. Eng.*, Sept., 1931), *J.*, XXXVI., 1932, Jan., p. 82.
Precise measurement of high frequencies (Abstract from *Proc. Inst. Rad. Eng.*, June, 1931), *J.*, XXXVI., 1932, Jan., p. 83.
Long wave radio field intensity, correlation with passage of storms (Abstract from *Proc. Inst. Rad. Eng.*, Sept., 1931), *J.*, XXXVI., 1932, Jan., p. 81.
High frequency atmospheric noise (Abstract from *Proc. Inst. Rad. Eng.*, Oct., 1931), *J.*, XXXVI., 1932, Jan., p. 81.
Communication by very short waves (Abstract from *Proc. Inst. Rad. Eng.*, Oct., 1931), *J.*, XXXVI., 1932, Jan., p. 81.

Development of directive transmitting antennæ, by R. C. A. Communications, Inc. (Abstract from *Proc. Inst. Rad. Eng.*, Oct., 1931), *J.*, XXXVI., 1932, Jan., p. 82.

Disturbances due to vibration in movable wireless receivers (Abstract from *Z.H.F.T.*, July, 1931), *J.*, XXXVI., 1932, Jan., p. 83.

Echo measurements in wireless telegraphy (Abstract from *Ann. d. Phys.*, July, 1931), *J.*, XXXVI., 1932, Jan., p. 83.

Improved audio-frequency generator (Abstract from *Bur. St. J. Res.*, Oct., 1931), *J.*, XXXVI., 1932, April, p. 355.

New broadcasting installation in Berlin (Abstract from *Proc. Inst. Rad. Eng.*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 355.

New methods of frequency control employing long lines (Abstract from *Proc. Inst. Rad. Eng.*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 355.

Photo-electric cells, application to colorimetry (Abstract from *Bell Tele. No.* B600, 1931), *J.*, XXXVI., 1932, April, p. 356.

Piezo oscillators, quartz plate mountings and temperature control (Abstract from *Bur. St. J. Res.*, Vol. 7, No. 4), *J.*, XXXVI., 1932, April, p. 357.

Polarisation of high-frequency waves and their direction-finding (Abstract from *Proc. Inst. Rad. Eng.*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 356.

Polarisation phenomena of low frequency waves (Abstract from *Proc. Inst. Rad. Eng.*, Nov., 1931), *J.*, XXXVI., 1932, April, p. 356.

Short radio waves, propagation over North Atlantic (Abstract from *Bell Tele. No.* B593, 1931), *J.*, XXXVI., 1932, April, p. 355.

Short-wave directive antennæ: Developments (Abstract from *Bell Tele. No.* B587, 1931), *J.*, XXXVI., 1932, April, p. 355.

Ultra short waves, direct crystal control (Abstract from *Phys. Zeit.*, Dec., 1931), *J.*, XXXVI., 1932, April, p. 354.

Simultaneous radiotelephone and visual range beacon for airways (Abstract from *Proc. Inst. Rad. Eng.*, March, 1932), *J.*, XXXVI., 1932, June, p. 489.

Kennelly-Heaviside layer heights for frequencies between 1,600 and 8,650 kc. per second (Abstract from *Bur. St. J. Res.*, Dec., 1931), *J.*, XXXVI., 1932, June, p. 489.

Eleven-year solar activity period, influence on propagation of wireless waves (Abstract from *Proc. Inst. Rad. Eng.*, March, 1932), *J.*, XXXVI., 1932, June, p. 488.

Flying and landing in fog, a radio system (Abstract from *Aeron. Eng.*, March, 1932), *J.*, XXXVI., 1932, June, p. 479.

Composite coil electrodynamic instruments (Abstract from *Bur. St. J. Res.*, Feb., 1932), *J.*, XXXVI., 1932, Oct., p. 901.

Constant frequency oscillators (Abstract from *Bell Tele. No.* B640), *J.*, XXXVI., 1932, Oct., p. 902.

Directional antenna systems, graphical determination of polar patterns (Abstract from *Bur. St. J. Res.*, May, 1932), *J.*, XXXVI., 1932, Oct., p. 903.

Effects of topography on short wave reception (Abstract from *Bell Tele.* B668), *J.*, XXXVI., 1932, Oct., p. 903.

Field intensity measurements (Abstract from *Bur. St. J. Res.*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 901.

Long wave transmission (Abstract from *Proc. Roy. Soc.*, July, 1932), *J.*, XXXVI., 1932, Oct., p. 903.

Operation of vacuum tubes as amplifiers (Abstract from *Bell. Tele.* B638), *J.*, XXXVI., 1932, Oct., p. 902.

Radio transmission over long paths (Abstract from *Bur. St. J. Res.*, Feb., 1932), *J.*, XXXVI., 1932, Oct., p. 901.

Selective photo-electric effect from two-component Cathodes (Abstract from *Bell Tele. No.* B622), *J.*, XXXVI., 1932, Oct., p. 901.

Transmission of 1.3m. wave signals (Abstract from *Phys. Zeit.*, March, 1932), *J.*, XXXVI., 1932, Oct., p. 902.

Tuned rectangular frame aerials for short waves (Abstract from *Proc. Roy. Soc.*, May, 1932), *J.*, XXXVI., 1932, Oct., p. 901.

Ultra short wave tubes (Abstract from *Ann. der Phys.*, Vol. 13, No. 2), *J.*, XXXVI., 1932, Oct., p. 903.

Wave lengths given off by a cylindrical electrical conductor (Abstract from *Ann. d. Phys.*, April, 1932), *J.*, XXXVI., 1932, Oct., p. 902.

WIRELESS, TELEVISION.

Television reception (Abstract from *Rev. Gen. de l'Electricite*, July, 1931), *J.*, XXXVI., 1932, April, p. 356.

Television (Abstract from *J.I.E.E.*, March, 1932), *J.*, XXXVI., 1932, June, p. 489.

WOOD, *see* Materials, Wood.

WOOD, R. MCKINNON, O.B.E., M.A., F.R.Ae.S.

The use of models in research and design, *J.*, XXXVI., 1932, Nov., p. 975.

WRIGHT, WILBUR, TWENTIETH MEMORIAL LECTURE.

New methods of research in aeronautics, by H. E. Wimperis, C.B.E., M.A., F.R.Ae.S., *J.*, XXXVI., 1932, Dec., p. 985.

X-RAYS.

X-ray test of structures (Abstract from *Aviation*, Vol. 31, No. 2), *J.*, XXXVI., 1932, June, p. 488.

ZINC PLATING, *see* Materials, Corrosion.
